LIBRARY DIRECTOR

March 12, 2020

Dear Adamstown Area Library Patrons,

We know there is a lot of news coverage about COVID-19, and we want to let you know that the Library is monitoring the situation and the impact it has on your library needs.

- We are following the Center for Disease Control (CDC) for updates.
- We will continue our regular cleaning and disinfecting of the facility
- We continue to offer storytimes and other programs at this time. We will continue to communicate if there are any changes to programs and services at Adamstown as a result of Coronavirus. Announcements will be made on the website, www.adamstownarealibrary.org, and on Facebook (@adamstown-area-library). Feel free to call the library for additional updates.
- We are providing equipment wipes for use by staff and the public for use at library computers, equipment, tables, etc. We also have hand sanitizer as long as supplies last. More has been ordered, but is currently on backorder.
- We are limiting the toys in the library to items that are easily cleaned.
- Bookdrops will remain open at all times for item drop off.

If you are sick, please do not attend library programs. If you are staying home, we can still serve you. **We invite you to take advantage of our online resources, accessed through the website.** You can download ebooks and audiobooks with OverDrive and keep up with the new with InfoTrac. **To help occupy children, check out BookFlix and TumbleBooks.**

Thank you for your patience as we work through this developing situation and thank you, as always, for supporting Adamstown Area Library.
